

Dawnprene TPE 9011-PB

TPE

TPE

Features: It is a black thermoplastic elastomer (TPE) material. This material combines good physical properties,chemical resisitance and elasticity, designed for extrusion applications.This grade of TPE can be processed on conventional thermoplastics equipment for extrusion .It is completely recyclable.

Drying Instructions: Need drying the granules before make molding,excessive moisture will lead materials bad extrusion surface,mechanical performance reduction and bad surface appearance. Moisture content request below 0.1%,suggesting drying as follow process:
